CESA® 1882
L'età dell'argento.

Lungo i bordi dei Portaritratti della Linea Bizantina si intrecciano e rincorrono eleganti motivi decorativi naturalistici che suggellano i nostri momenti indimenticabili.

Very elegant naturalistic decorations blend and follow one another along the edges of the picture frame from the Linea Bizantina collection, sealing our unforgettable moments.

Festoni di fiori e foglie, tipici motivi ornamentali naturalistici del Rinascimento, si rincorrono lungo i bordi delle Cornici degli Argenti del Quirinale e ritagliano gli spazi per le foto più care, quelle dei volti amati e dei momenti indimenticabili.

Leaf and flower ornaments, typical naturalistic motifs of Renaissance art, alternate along the edges of Quirinale's Silver Frames and they carve out a space for your most dear photos, those of the people you love and of moments you will never forget.

Le fotografie vivono nelle cornici. Senza di esse sembrano quasi svestite. Le cornici non sono i loro abiti, ma attirano ed indirizzano lo sguardo sulle immagini che contengono ed esaltano. L'argento con i suoi riflessi di luce crea una cintura di splendore. Cesa 1882 lo sa.

Photos exist inside the frames, looking almost bare without them. Frames are not like the photos' clothes, however they surely attract our look to the images they contain, and make the most out of them. Silver, with its light reflections, creates something like a girdle of splendour around the photos. Cesa 1882 is perfectly aware of that.
